Below is a checklist containing all the steps to build your home. An asterisk denotes the Building Inspector will have to check the work before the construction can continue.

We are specialists in custom home building for a wide variety of buyers. Building board-by-board with no modular construction or pre-fab. Some customers have us complete their home up to 50% to the shell stage, Others want a 100% job done so the house is ready to be moved in. We will do either stage or anything in between, the choice is yours! Download the PDF here: Homeowner Checklist For Building A House
